

150-foot collapsible container for cement plant

Overview

A containerized cement silo, also known as a horizontal bulk cement tank, is a closed tank designed for storing bulk materials, suitable for cement, fly ash, and other bulk materials. The CUBE 150 is a proven solution at a variety of job sites. Its construction involves the use of metal or steel cylindrical vessels, which are typically fitted with screw conveyors. Diversified Storage Systems has been manufacturing best-in-class dry powder storage, transfer equipment, and silos since 1993. Our systems are delivered fully assembled, user friendly, and require minimal on-site. Blend horizontal silos are the ideal complement for our mobile concrete mixing plants. They are extremely versatile, manageable and mobile. No authorization for installation is needed as foundations are not necessary. Shipping fee and delivery date to be negotiated.
