Page 1/4 SolarInnovate Energy Solutions Install the communication base station inverter on the roof and connect it to the grid. Powered by SolarInnovate Energy Solutions Page 2/4 Overview How do you connect a grid. Inverter communication mode and application scenario · The data signal is connected to the low-voltage busbar through the power line on the AC side of the inverter, the signal is analyzed by the inverter supporting the data collector. A base station for previous telecommunication. In communication base stations, since they usually rely on DC power, such as batteries or solar panels, while most communication equipment and other electronic equipment require AC power to operate properly, inverters are almost a necessity. For the installation of a radio base station, the operators are reminded to consider the possible effect of radio-frequency radiation on flammable atmospheres due to the diesel fuel oil tank, if any, installed on the proposed rooftop.
