

# Can photovoltaic panels be installed on the gable

## Overview

---

Solar panel installation on gable roofs is indeed feasible and commonly practiced. The design of a gable roof provides an ideal location for solar panel placement, as it often offers ample uninterrupted space for installation. We've. Solar, or photovoltaic (PV) panels as they're referred to in NFPA 1, Fire Code, are becoming more and more common on one- and two-family dwelling and townhouse roofs. Since the 2016 edition of NFPA 1, access pathways have been required on roofs to facilitate fire service access as well as egress. Solar panels can be installed on almost any roof style with a few exceptions. The roof on your home, garage, shed, or barn could all be potential candidates for roof-mounted solar panels.
