

Can photovoltaic panels be removed privately

Overview

The simple answer is yes; solar panel arrays are designed to be modular and demountable, not permanent fixtures. This necessity might stem from planned roof maintenance, system upgrades, or preparations for selling the property. Roofs and solar panels have similar lifespans, typically 20-30 years or more for quality roofing materials and. The original panels need to be removed for the new ones to be installed. If you are planning to move, carrying your solar power system is advisable. If it is relatively new or of high quality, then it is very important.

Can photovoltaic panels be removed privately
