

# Canadian energy storage battery direct sales

## Overview

---

LG Energy Solution will acquire full ownership of NextStar Energy, with Stellantis selling its 49% equity stake in Canada's first large-scale battery facility. The move is designed to bolster growth flexibility and secure critical battery supply for North America's EV and energy. Canada-wide distribution and full support for flooded lead-acid, lithium, and AGM batteries used in transportation, motive, and stationary applications. Canadian Energy is proudly 100% Canadian owned and operated, built by Canadians to serve Canadians nationwide. It comes as the global automaker takes a big financial hit as it pulls back on its electric vehicle ambitions. The move, slated for completion pending typical approvals, highlights. The installed capacity of energy storage larger than 1 MW—and connected to the grid—in Canada may increase from 552 MW at the end of 2024 to 1,149 MW in 2030, based solely on 12 projects currently under construction 1. There are an additional 27 projects with regulatory approval proposed to come. Stellantis to sell its 49 per cent equity stake in NextStar Energy to its founding joint venture partner, LG Energy Solution. Weather Science & Tech Videos Lifestyle Shopping Gift Guide Health &.
