

# China electric vehicle market indonesia

## Overview

---

China's electric vehicle (EV) brands continue expanding rapidly in Indonesia, with BYD and Chery leading the charge in January 2025. The latest sales data show Chinese Battery Electric Vehicles BEVs dominating the market, as demand for seven-seater and off-road electric. [JAKARTA] Chinese carmakers drove a huge surge in Indonesia's electric vehicle (EV) sales last year, more than doubling to a record 43,000 units. In just the first half of 2025, EV sales jumped 267% compared to the previous year, reaching 35,749 units. The surge is overwhelmingly powered by Chinese automakers, who account for a stunning 93% of these sales. Get a daily. TEMPO. CO, Jakarta - For more than two years, Andre Satria has driven an electric vehicle (EV) for his daily commute from his home in Pamulang, South Tangerang, Banten, to his office on Jalan Sudirman, Jakarta. The 35-year-old agency employee was drawn by government "incentives" for users of. Sales are up for Chinese EV brands in Indonesia but the sector still faces multiple challenges to expand further, such as limited number of charging stations.
