Outdoor communication cabinets, also known as outdoor enclosures, are specialized equipment directly exposed to natural climatic conditions, typically made from metal or high-strength non-metallic materials. Their primary design objective is to provide a stable and secure physical operating space. Raycap's cabinet solutions for LTE-/5G antenna locations offer the highest reliability to effectively support mobile network operations. The indoor and outdoor cabinet systems enable smooth operation and their modular designs provide operational flexibility. Each OSP Enclosure is custom built to customer specifications. Mechanical security. The Base Station Energy Cabinet is a fully enclosed, weather-resistant telecom energy cabinet designed to provide reliable power distribution and battery backup for outdoor communication networks. They are crucial for keeping processes safe while providing dependable electrical distribution.
