

Electric vehicle policy south tarawa

Overview

This applied research project aims to provide Pacific Cities, including South Tarawa, with a roadmap of viable policy and investment options to become less car-centric. The project administration manual (PAM) describes the essential administrative and management requirements to implement the project on time, within budget, and in accordance with the policies and procedures of the government and Asian Development Bank (ADB). It emphasizes moving towards a greener environment and supports the decarbonization movement. It is the first ADB project in Kiribati's energy sector.
