

Electricity regulations berne

Overview

As the independent government regulator for the electricity sector, ElCom has a wide range of tasks. It monitors compliance with the Electricity Supply Act (ESA), makes the necessary rulings and issues binding decisions. ElCom also monitors electricity prices and tariffs as well as the security of. The purpose of this Local Law is to protect the public health, safety and welfare of the residents of the Town of Berne and to maintain the status quo as to certain solar energy uses and Battery Energy Storage Systems (BESS), as the present zoning regulations in the Town do not adequately address. Since 2007 Switzerland has been negotiating a bilateral agreement with the European Union in order to achieve full compatibility between Swiss and EU electricity regulations. In 2010, the Federal Council expanded the scope of these negotiations to the most recent legal developments in the European. This article summarises and classifies the key regulatory developments in the second half of the year. Juni 1902 betreffend die elektrischen Schwach- und Starkstromanlagen (Elektrizitätsgesetz, EleG) Stromversorgungsverordnung vom 14.
