

# Energy conservation tuvalu

## Overview

---

Renewable energy provides Tuvalu with a path toward sustainability, economic resilience and energy independence. Behind this goal lies the widespread issue of energy poverty, or the lack of access to reliable and clean energy. The grant enables the country to reduce its dependence on imported fossil fuel used to generate power and to improve the efficiency and sustainability of its electricity system. The project co-financed by ESMAP will. The project aims to facilitate the development and utilisation of feasible renewable energy resources and applications of energy efficient technologies in Tuvalu.
