

Energy storage system cost chart

Overview

The interactive figure below presents results on the total installed ESS cost ranges by technology, year, power capacity (MW), and duration (hr). Department of Energy's (DOE) Energy Storage Grand Challenge is a comprehensive program that seeks to accelerate. In this work we describe the development of cost and performance projections for utility-scale lithium-ion battery systems, with a focus on 4-hour duration systems. The projections are developed from an analysis of recent publications that include utility-scale storage costs. Current Market Overview: Energy.
