

# Ethiopia electric vehicle range

## Overview

---

In just two years, the country's electric vehicle (EV) fleet has tripled, soaring from around 4,600 units in early 2023 to over 14,000 by mid-2025. This unprecedented growth is the result of bold government incentives, strategic energy planning, and a sweeping ban on fossil-fuelled. Ethiopia's automotive landscape is undergoing a significant transformation with the rise of electric vehicles (EVs). In 2025, the market offers a diverse range of EVs, from established international brands to emerging Chinese models, catering to various consumer preferences and budgets. source. Here are five EVs tailored for Ethiopia's market: GAC Aion Y: Affordable SUV (\$15,000-\$17,500) with a 286-380 mile range, local assembly plans, and advanced features like autonomous driving. BYD Atto 3: Compact SUV (\$47,500) with a 214-261 mile range, premium performance, and compatibility with. Recent developments have bolstered this transition, with Ethio Telecom launching ultra-fast EV charging stations along Addis Ababa's Bole-Megenagna corridor, capable of charging up to 32 vehicles simultaneously at an affordable rate of 10 birr per kilowatt-hour. Private businesses, including malls. In 2023, the country became the first in the world to ban imports of internal combustion engine (ICE) vehicles.
