

Example of the design drawing of photovoltaic panels on the roof

Overview

Learn how to create solar site plans and module layout drawings for roof and ground-mounted systems. Provide an architectural drawing and riser diagram for the homeowner showing the planned location for future photovoltaic and solar hot water system components. Space requirements and layout for photovoltaic and solar water heating system components should be taken into account early in the design. Design Presentation is a leading provider of residential and commercial Rooftop Solar Drawings, including Solar PV installation design and drafting services. It also enables our design drawing partners to quickly generate an electrical drawing or complete permit plan set for your project. DWG format available upon request.
