

Financing for 40kWh Energy Storage Units for Livestock Farming

Overview

The Farm Storage Facility Loan Program (FSFL) provides low-interest financing so producers can build or upgrade permanent and portable storage facilities and equipment. FSA makes direct and guaranteed farm ownership and operating loans to family-size farmers and ranchers who cannot obtain commercial credit from a bank, Farm Credit System institution, or other lender. FSA loans can be used to purchase land, livestock, equipment, feed, seed, and supplies. The funds are dispersed by the U. Department of Agriculture (USDA) and must be used to purchase, install and construct renewable energy systems or energy. Financing for cattle and hog barns, farm storage buildings, grain bins and more. Fixed, adjustable or variable rates, including rate conversions.
