reviewed scholarly literature

Green Energy and Resources

Regional energy systems are designed to contribute to a green and "carbon neutral" economy of localities. In this system, the engine combustion is significant for power generation.

- LiFePO₄ Battery, safety
- Wide temperature: -20~55°C
- Modular design, easy to expand
- Wall-Mounted&Floor-Mounted
- Intelligent BMS
- Cycle Life:> 6000
- Warranty:10 years
