

# Ground gasket between photovoltaic panels

## Overview

---

Ensure complete protection of your PV system with this gasket specially designed for mounting between solar panels. I store bags of sand and cement under them, under a tarpaulin, and crates of assorted household 'junk'. When I mounted the panels, I left a 1-2cm gap between them, because I thought it would allow some of the wind. Sealing the gaps between solar panels is essential for a variety of reasons, including water resistance, anti-debris, improved wind resistance, and aesthetics. 5 meters) can cover. Strong compatibility, aluminum guide photovoltaic car shed and C steel (U steel) guide matching. It is suitable for various installation environments.
