Discover our full lineup of high-frequency inverters designed for commercial, industrial, and home applications in Senegal, including wall-mounted systems for compact installations, rack-mounted inverters for data centers and control rooms, hybrid solar-compatible. A high-frequency inverter is a compact and efficient power conversion system that transforms DC power into clean, stable AC power using advanced switching technologies. These inverters are ideal for applications that require fast, precise, and continuous energy flow, such as solar power systems. The CyberPower VALUE1000EILCD Value Series UPS is a robust power backup solution designed for professionals. With a capacity of 1000VA/550W, it features three IEC outlets, automatic voltage regulation, and an LCD status monitor. Pure sine wave output ensures reliable performance. It includes : Dual input sources (AC & DC) with a wide AC input range of 150 VAC up to 265 VAC High efficiency.
