

Household roof solar power generation equipment

Overview

To go solar, you'll need solar panels, inverters, racking equipment, and performance monitoring equipment--at a minimum. Depending on where you live, you may also consider a solar battery. But different product options and brands can. There are three main types of residential solar panel installations: grid-tied, hybrid, and off-grid. Engineered in California and assembled in Buffalo, New York, our Solar Panels offer a sleek and modern take on traditional panels. Generally, solar panels come in the capacity range of 40 Wp to 390 Wp. Take control of your power with premium solar + storage.
