

How deep is the locker to accommodate a stool

How deep is the locker to accommodate a stool

Standard Locker Sizes with Diagram

LockShelvesHooksVentilationSloping TopHeavy DutyOversizedPerforatedSome types of lockers are made from a more heavy-duty type of steel, usually sheets that are 1.2mm thick compared with the standard 0.8mm sheet metal. This makes the lockers harder to compromise. Heavy-duty lockers are also usually equipped with three-point locking systems, making them much more difficult to break into. Scenarios, where heavy-duty See more on hominish HOME CABINET EXPERT
