

# How many schools can provide loans for solar power generation

## Overview

---

Of the 125,000 K-12 schools in the country, up to 72,000 schools (60%) can "go solar" cost-effectively. Via seven loan programs & project categories supporting both innovative and commercial technologies. SEFI projects support deployment of a qualifying clean energy technology and receive meaningful financial support or credit enhancements from an entity within a state agency or financing authority. While many schools rely on third-party funds to support solar projects, there are additional opportunities to scale renewable energy adoption through federal programs, state legislation, and local partnerships. These financing options can play a. uptake at the district level. However, school administrators, organizers, and workers now have a range of options for ransitioning to solar energy. The Inflation Reduction Act (IRA), passed in August 2022, provides funding and financing for solar projects as well as new opportunities to maximize. growth in solar capacity at nationwide K-12 schools in 10 years metric tons of CO2 could be removed each year if all K-12 schools were 100% solar-powered New report: Learn about the Connecticut Green Bank's successful model for scaling publicly owned solar at schools.
