

How to remove the photovoltaic panel after it is glued

Overview

WD40 is my adhesive residue cleaner of choice. Spray it on, let it soak for a few hours or overnight, then wipe it off with something non-abrasive, like a shop towel. I now use. But now you need to remove photovoltaic panels that were installed using industrial-grade adhesive. Cue the cold sweat - this isn't your average DIY project. UPDATE: The panels are being replaced under warranty so the old ones need to come off. Matt runs us through the removal process for glued down solar panels. Apply protective measures post-removal. Somehow while keeping the Ollie under a cover we got duct tape adhesive on a solar panel, and I'm wondering how to safely remove the adhesive. Would using GooBeGone be a reasonable choice?

Thanks for the help! Mary My husband and I have Hull # 55.
