Huawei tool battery parameters are generally

Overview

Basic battery parameters are the criteria for battery management and need to be set based on the actual number of battery strings and battery capacity. Specifies a charge current limit. The limiting coefficient is a multiple of the battery capacity. One end of the cable has an RJ45 connector, while the opposite end remains open. Below are the LAN cable pins designated for RS485 communication. Ensure. Debe ajustar los parámetros de su inversor en función de su batería en modo de carga, el BMS de Huawei puede proporcionar un voltaje más alto o más bajo, depende de la configuración de los parámetros del BMS. Usé el mío en un híbrido Deye de 5 kW, proporciona 55,94 V en modo de descarga y 56-57 V. Specifies the maximum battery charging power.

Huawei tool battery parameters are generally

Setting Battery Parameters

These parameters are displayed when Battery Model is set to a lead-acid battery model. The float charge voltage should be lower than the equalized charge voltage. The equalized charge voltage should be greater ...

Battery Parameters

Specifies the voltage of each battery in a battery string connected in series. Set this parameter based on the actual configuration. Specifies the number of batteries in a battery string. Set this parameter based on the ...

Battery Control Parameters

Capacity Control Parameters (Peak Shaving) The Peak Shaving function can reduce the maximum peak power obtained from the grid during peak hours by configuring the power supply power in self-use mode or TOU ...

Battery Parameters

When the battery SOC drops to 0%, charge the batteries in a timely manner. If the batteries are not charged in a timely manner, the battery capacity will attenuate irreversibly. The resulting battery faults are not covered ...

Huawei Batteries

Download and open the Huawei Maintenance Tool Platform. Select the Language, COM port, and Device (Lithium Battery), then click Connect. You will be logged into the battery interface, as shown below. ...

Setting Basic Battery Parameters

Set basic battery parameters on the LCD by navigating through Main Menu > Setting Wizard > Battery Parameters.
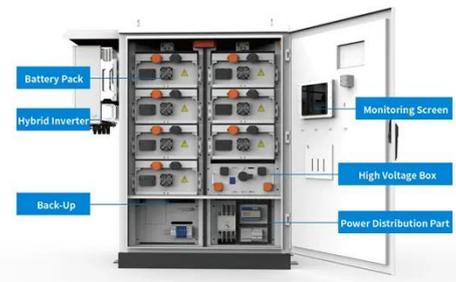

Huawei Battery Support , Page 2 , DIY Solar Power Forum

Se puede solo con el cable y el software verificar que estén en correcto estado? Te mande un DM también.
