

Inner Mongolia photovoltaic support was blown over

Overview

(ECNS) -- China's first large-scale photovoltaic testing base in the Gobi Desert began operation on Friday in Otog Front Banner, Inner Mongolia, according to China Energy Investment Corporation. In recent years, Inner Mongolia has made all-out efforts to tackle the ecological challenges in the areas along the Yellow River, and has treated land. The 3-million-kilowatt photovoltaic power station project in the Ordos coal mining subsidence area of Inner Mongolia, constructed by the CHN Energy Investment Group's Inner Mongolia Company, is part of China's second batch of large-scale wind power and photovoltaic bases. But the scale of the ongoing project launched there in October last year is about the size of 10,000. HOHHOT, Sept. 5 (Xinhua) -- Seen from the air, 196,000 solar panels stretch across the Kubuqi Desert in a striking horse-shaped mosaic, while on the ground, visitors to Chaideng Village, Ordos City, stroll along the solar station and nearby farmstays, savouring local delicacies in what was once the. An aerial drone photo taken on Jshows a photovoltaic project in Kubuqi Desert in north China's Inner Mongolia Autonomous Region. " This poetic nickname reflects a profound shift.
