

Liability for damage to photovoltaic panels during installation

Home Energy Storage (Stackble system)

High Efficiency

Easy installation

Safe and Reliable

Perfect Compatibility

Product Introduction

-  Scalable from 10 kWh to 50 kWh
-  Self-Consumption Optimization
-  Integrated with inverter to avoid the compatibility problem

-  LFP battery, safest and long cycle life
-  Stackable design, effortlessly installation
-  Capable of High-Powered
-  Emergency-Backup and Off-Grid Function

Overview

Property owners generally hold liability if damage results from their solar system's defective design, installation, or maintenance. Conversely, installers may be liable if negligence or breach of duty contributed to the damage. As solar power becomes increasingly integral to sustainable energy strategies, understanding the legal framework governing such liabilities is crucial. Understanding the legal foundations and liability responsibilities is essential to navigating potential disputes and ensuring adequate. That's why brokers working with solar installation firms should ensure their clients have comprehensive protection through contractor liability insurance.
