

Mark peplow bio

Overview

I was the editor of Chemistry World magazine from 2006 to 2008, which followed two years as a reporter at Nature. I now live and work in Penrith, UK. Before turning freelance in January 2013, I spent four years as the chief news editor at Nature magazine, where I ran the global news team and shepherded numerous exclusives into print and online. I was the. Mark Peplow is a former employee of the Science Media Centre and was previously chief news editor at Nature. He covers science policy and pure research with equal passion, and his writing combines a scientist's precision with a journalist's verve.
