

National photovoltaic panel distribution

Overview

Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. The USPVDB Viewer lets you discover, visualize, and interact with. Berkeley Lab collects, cleans, and publishes project-level data on distributed* solar and distributed solar+storage systems in the United States. The data are compiled from a variety of sources, including utilities, state agencies, local permitting agencies, property assessors, and others. Each presentation focuses on global and U.S. government programs supporting the solar industry.

National photovoltaic panel distribution

Solar Resource Data and Maps

Click the images below to view maps of concentrating collector and tilted photovoltaic panel solar energy resources on BLM-administered lands in the six-state PEIS study area. These maps are based on ...

Quarterly Solar Industry Update , Department of Energy

Each quarter, the National Renewable Energy Laboratory conducts the Quarterly Solar Industry Update, a presentation of technical trends within the solar industry.

U.S. Distributed Solar and Storage Data

Berkeley Lab collects, cleans, and publishes project-level data on distributed* solar and distributed solar+storage systems in the United States. The data are compiled from a variety of sources, ...

U.S. Photovoltaic Database

The U.S. Large-Scale Solar Photovoltaic Database provides the locations and array boundaries of U.S. photovoltaic facilities, with capacity of 1 megawatt or more.

Annual Solar Photovoltaic Module Shipments Report

This report includes summary data for the photovoltaic industry from annual and monthly respondents. Data include manufacturing, imports, and exports of modules in the United States and its territories.

PVWatts Calculator

Estimates the energy production and cost of energy of grid-connected photovoltaic (PV) energy systems throughout the world. It allows homeowners, small building owners, installers and manufacturers to ...

Data and Tools , Solar Research , NLR

Browse or search this comprehensive listing of data and tools for analyzing

photovoltaic (PV) and concentrating solar power (CSP) technologies, solar grid and systems integration, and ...

Solar Interconnection Standards & Policies , US EPA

This report, produced by the National Renewable Energy Lab (NREL), presents results from an analysis of distributed solar interconnection and deployment processes in the United States.

Viewer , USPVDB

The U.S. Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. front-of-the-meter, photovoltaic facilities, direct current capacity of 1 megawatt or more, that became ...

Solar Industry Research Data - SEIA

There are now 262 gigawatts direct-current of solar capacity installed nationwide, enough to power 45 million

homes. In the last decade, solar deployments have experienced an average annual growth ...
