

Nearby wind power plants

Overview

Use an Interactive map to find the best places for wind turbines around the world. 30 000 places were carefully found using machine-learning algorithms and tons and tons of data of different parameters. Michael is the CEO of Cleanview. His reporting on clean energy and data centers has been cited in The New York Times, Wall Street Journal, and hundreds of other publications. Whether you're a renewable energy researcher, wind farm developer, or environmental consultant, this interactive map tool makes it easy to locate wind. Wind turbine map, always up-to-date with more than 300k turbines worldwide. Open-street-map (OSM) provided info boxes with turbine type, manufacturer, rated power, hub height, rotor diameter and operator if available. The comprehensive (and colorful) collection of wind.

Nearby wind power plants

Interactive Map of U.S. Power Plants

This map displays information on location, fuel type, electric generation, generating capacity, ownership, and emissions for over 10,000 power plants across the country.

Power Plants and Neighboring Communities Mapping Tool

The Power Plants and Neighboring Communities Mapping Tool (PPNC) is an interactive map that displays socioeconomic information of communities, along with the location and operating information for ...

Maps and Data , Department of Energy

Providing the estimated wind power density at 50 meters above the ground, these maps are suitable for distributed wind energy, which powers nearby users, such as communities looking to lower utilities costs.

World Wind Turbine Map

Wind turbine map, always up-to-date with more than 300k turbines worldwide. Open-street-map (OSM) provided info boxes with turbine type, manufacturer, rated power, hub height, rotor diameter and operator if available.

US Wind Farm Map

Interactive map of wind farms in the US. View the largest projects, track new developments, and explore capacity data across all states.

Windcatcher -- Interactive map of the best places for wind turbine

Use an Interactive map to find the best places for wind turbines around the world. 30 000 places were carefully found using machine-learning algorithms and tons and tons of data of different parameters.

Map of Wind Farms Around The World

Map of wind farm power plants in the US,

Europe, Asia, Africa & Australia. Search and share locations.

Wind energy database

The Wind Power is a comprehensive database of detailed raw statistics on the rapidly growing sphere of wind energy and its supporting markets.

Wind Farms Map: Find Wind Farms Nearby

The tool allows you to explore wind farms in any country using a world map, in addition it allow filtering wind farms by number of turbines and installed capacity.

Find Wind Turbines Near Me

Ready to find wind turbines near you and extract comprehensive wind farm data? Our free online tool makes it simple to locate, analyze, and download wind

turbine information from anywhere in the world.
