

# Nordic new energy projects equipped with energy storage

## Overview

---

Emerging thermal energy storage solutions may complement these technologies, helping to shift heating loads and support grid balancing in urban and industrial settings. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest battery energy storage project in the Nordics. News from the Nordics and the Baltics, with BESS projects launched in Sweden, Denmark and Latvia by Centrica, Nordic Solar and Niam Infrastructure and Evecon.

## Nordic new energy projects equipped with energy storage

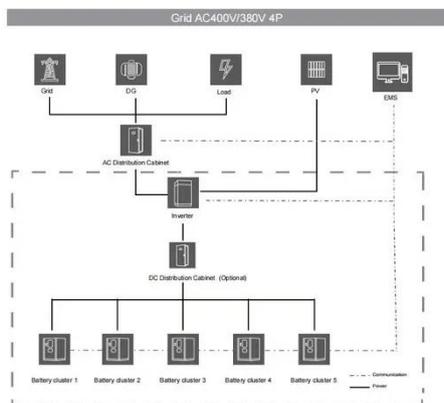

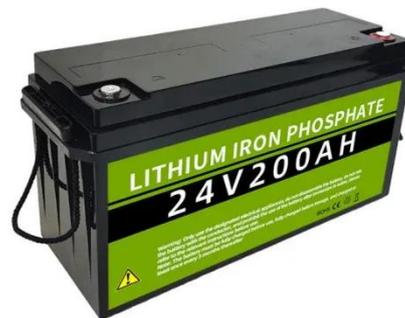

### SEB Nordic Energy invests in major battery storage project

Computer-generated picture of the future battery storage park in Finland. SEB Nordic Energy's portfolio company, Locus Energy, in collaboration with Ingrid Capacity, will build the largest ...

### Large-Scale Energy Storage: A Future-Proof Nordic Investment

Nordic countries are rapidly deploying intermittent renewable energy sources like wind and solar power. The variable output from these sources presents challenges to grid stability, making large-scale ...

### ROUNDUP: BESS projects in Sweden, Denmark and Latvia

This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into ...

## European Energy inaugurates Northern Europe's largest combined ...

The project demonstrates European Energy's approach to enhancing asset value through storage integration and flexible system operation. The battery enables electricity generated during ...

114KWh ESS

ISO 9001 ISO 14001 PICC RoHS CE MSDS UN38.3 UK CA IEC

## Nordic Energy Storage Supercapacitor Project: Powering the Future of

"Think of supercapacitors as the sprinters of energy storage," says Dr. Lena Fjellström, project lead at Nordic Energy Research. "They're not here to replace marathon-runner batteries, but ...

## Energy Storage

The Nordic region benefits from large hydro reservoirs that provide excellent and cost-effective energy storage options, which are already being efficiently utilised.

## The Largest Energy Storage Portfolio in the Nordic Countries Opened ...

Since 2023, Ingrid Capacity and BW ESS have been working together on 14 large-scale energy storage projects strategically located within Sweden's electricity grid in price zones SE3 and ...

---

## Emerging technologies in the Nordic energy sector's transition

From advanced storage solutions to nuclear innovation, learn how technological breakthroughs are paving the way for a more flexible, efficient and sustainable energy future.

---

## Finland to host 240 MWh of new BESS projects

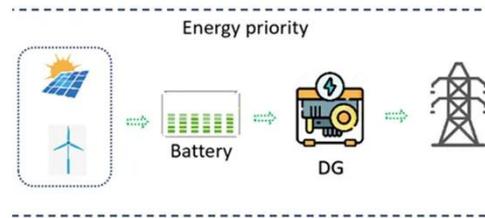

Two of the Nordic country's biggest battery energy storage projects have been announced just days apart.

---

## Finland's Largest Battery Storage Begins Construction

As energy stakeholders anticipate the completion of the Nivala-based

infrastructure, the project led by SEB Nordic Energy's Locus Energy and Ingrid Capacity AB underscores emerging ...
