

Outdoor Solar Panel Wireless On-site Energy

Overview

Ventev's Wi-Fi Solar System is a complete, fully-integrated power enclosure system that is pre-wired and pre-assembled for on-site installation of outdoor access points requiring PoE/PoE+ power. We work with Aruba, AT&T FirstNet, Cisco, Fortinet, Mist, Motorola/Extreme, Samsung, and many others to provide an ecosystem of products to connect, protect, and enable the wireless world. It's the perfect solution for adding power to remote locations where it's too. Our PWAP system offers maintenance-free, portable power housed on a wheeled mobile unit that can be deployed in virtually any location. Manufactured on farms or in facilities that protect the rights and/or health of workers. Discover more products with sustainability features. Imagine harnessing the power of the sun to establish a reliable wireless connection across vast expanses, whether it's for extending internet access to remote. You must select an option for 'Special Order Item with Extended Shipping Time - No Return / Refund'.
