

# Photovoltaic module unpacking support

- ✓ **ALL IN ONE**
- ✓ **100Kw/174Kwh  
High Capacity**
- ✓ **Intelligent  
Integration**

## Overview

---

The long side of the module to unpacked needs to be close to a solid support for about 15-20cm distance, the support could be a wall, rack or another unpacked module box of the same type, and then use scissors to cut all the packing strap of the outer box. Prior to unpacking, store pallets in a covered, dry and ventilated location. Do NOT support the pallet with sharp objects or loose. This manual is for Jinko solar PV module storage and unpacking instructions. This document provides unpacking instructions to our packaging solution for solar modules. Adherence to these procedures is essential to maintain product integrity, ensure personnel safety, and comply with. Proper photovoltaic panel unpacking requirements and specifications aren't just red tape; they're the difference between a 25-year energy workhorse and an expensive glass paperweight.
