

Photovoltaic panels don't need much maintenance

Overview

Solar panel systems are incredibly durable and require little to no maintenance over their 25+ year lifetime. Imagine never having to worry about constantly maintaining your solar panels. In fact, once they are installed, you can sit back and relax while they quietly generate clean energy for you. Solar panels practically take care of themselves, but a little maintenance can go a long way. Why trust EnergySage?

Going solar can translate into serious savings, but with five-figure upfront costs, you'll want to make those panels last as long as possible.
