Overview

The federal government does not provide free solar panels, but many states and utilities offer incentives that can reduce the cost of going solar. You can install solar panels on your roof with no upfront cost by signing a lease or PPA or taking out a \$0-down loan. You don't own the system, but you do get to use the electricity it generates, typically at rates lower than what. Companies that offer “free” solar panels are typically offering solar lease agreements, so you can reap the benefits of solar-powered electricity without dealing with the upkeep and maintenance of the panels. “They are. The ITC — also known as the Federal Solar Tax Credit — is a popular tax rebate program offered by the US Federal Government for homeowners looking to switch to clean, renewable solar power. In August of 2022, the United States Congress extended the ITC while at the same time raising the total. There's no such thing as free solar panels.
