

Price of imported photovoltaic panels in Cambodia

Overview

Let's face it: Cambodia's solar panel price remains 20-30% higher than in neighboring Vietnam or Thailand. But why?

Well, three factors dominate: import dependence, fragmented supply chains, and limited financing options. Over 80% of photovoltaic systems here rely on Chinese or European imports. PHNOM PENH – Massive US tariffs imposed on Cambodia's solar panel exports will have only a small effect on the country's economy and negotiations can be expected, an economist says. The US plans to impose tariffs of up to 3,521 percent on solar panels from Cambodia, Thailand, Malaysia and Vietnam. Following the final determination of the antidumping and countervailing duty investigations, the US imposed 3,500 percent on solar panel imports from Cambodia. According to an analyst, this significant rise will effectively “kill” the sector, leaving market diversification as the only viable option. U. The move underscores the intricate dynamics of global trade and its profound impact on the renewable energy sector.
