

Qianxun Location Mini Base Station

Overview

Feature highlights: The Qianxun Q800 RTK GNSS Base Station offers centimeter-level accuracy with support for multiple satellite systems including GPS, BDS, GLONASS, Galileo, QZSS, SBAS, IRNSS, and L-Band. With years of experience in the construction and operation of national GBAS in China, and SpatiX's global station network system as well as its developed positioning algorithm and Large-scale Internet Service platform, SpatiX's centimeter-level high-precision positioning service has an availability. 2□The network base station needs to insert a mobile traffic card. The card insertion method is shown in the following figure□ When using the network base station function, the SN numbers of the base station and other RTK devices must be added to the app. Only after the SN numbers of other devices. Take the WEB development of Qianxun Yunzong FindS as an example below Step1: Enter the official website of Qianxun: <https://www.com/> Step2: Register or log in Step3: Skip the registration part and log in directly Step 4: Get sik and sis Step5: Learn about API overview Step6: Download the demo. Qianxun BDS (Henan) Intelligent Technology Co. is a specialized technology service company rooted in cutting-edge satellite communication technology. Searching more satellites, tracking stronger signals, and blocking-resistant. Survey in no time upon booting.

Qianxun Location Mini Base Station

Innovation in Infrastructure Construction for GNSS Service

It provides stable and consistent centimeter-level high-precision positioning services, helping RTK receivers to achieve fast fixation and benefit from unified coordinate reference and service access ...

Qianxun Location Achieves Remarkable 16 Billion Yuan Valuation, ...

Discover how Qianxun Location, a leader in high-precision positioning, secures new funding and rises to unicorn status in Beijing, reflecting the growing opportunities in intelligent ...

Qianxun Q800 RTK GNSS Base Station

Feature highlights: The Qianxun Q800 RTK GNSS Base Station offers centimeter-level accuracy with support for multiple satellite systems including GPS, BDS, GLONASS, Galileo, QZSS, SBAS, ...

Spatiotemporal Intelligent Infrastructure in the AIoT Era , Qianxun SI

Qianxun Spatial Intelligence Inc. (Qianxun SI) is the leading Spatiotemporal Intelligent Infrastructure company in the world and has developed various types of satellite positioning equipment and spatial ...

Summary of Getting Started with Qianxun Location Platform

Brief introduction of Qianxun platform: Relying on the Beidou ground-based enhanced base station to provide positioning services, it is divided into sub-meter, centimeter, and static millimeter-level ...

Q600 Qianxun 2025 Agricultural Dedicated RTK Base Station with ...

Qianxun BDS (Henan) Intelligent Technology Co., Ltd. is a specialized technology service company rooted in cutting-edge satellite communication technology. By providing reliable location-based ...

Qianxun SI Mini RTK Q300, High Accuracy Module RTK, Mini RTK, ...

Your one-stop shop for professional surveying tools! We offer a wide range of mapping equipment, including GPS systems, total stations, levels, and accessories, at competitive prices.

Network Base Station Instruction of Network Base Station

When using the network base station function, the SN numbers of the base station and other RTK devices must be added to the app. Only after the SN numbers of other devices are added to the ...
