Rtx corporation products

Our Businesses

RTX serves customers in the commercial aerospace and defense industries. We combine complementary technology offerings and world-class engineering teams to deliver innovative solutions.

Home , Raytheon

RTX's Raytheon to equip U.S. Air Force autonomous fighter jet with PhantomStrike® radar RTX's Raytheon awarded \$168 million contract for Romanian Patriot air defense equipment

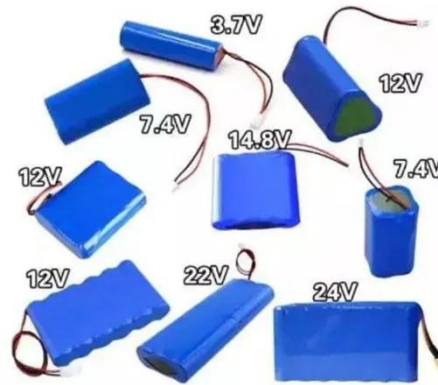

Smarter Defense Systems , RTX

It's the world's most advanced fighter jet, and RTX produces much of the technology that helps it accomplish its many missions - including our new, ...

RTX (RTX) Company Profile, History, Products & Services

RTX's portfolio includes commercial aircraft engines such as the Geared Turbofan (GTF) engine, defense systems including the Patriot missile defense system, and aerospace systems like the LEAP ...

Home , Raytheon

Find purpose, thrive and succeed. Raytheon brings together the best minds, systems and capabilities to create next-generation solutions ...

AEROSPACE REDEFINED , Collins Aerospace

RTX's Collins Aerospace awarded NATO contract for electromagnetic warfare command and control system At Collins Aerospace, we're working side-by-side with our customers and partners to dream, ...

Smarter Defense Systems , RTX

RTX's high-energy laser systems are helping defeat drone swarm threats

without leaving the ground. Our airborne sensors give pilots and unmanned aircraft the advantage at penetrating enemy ...

We Are RTX , RTX

Now more than ever, RTX is ready to tackle tomorrow's challenges and drive aerospace and defense forward. We are ensuring the United States and allies have the most advanced air-to-air missile ...

RTX Corporation (RTX) Company Profile & Description

RTX Corporation, an aerospace and defense company, provides systems and services for the commercial, military, and government customers in the United States and internationally. It ...

Integrated Air & Missile Defense , Raytheon

The Stinger® missile is a short-range air defense system that can be shoulder-launched or fired from a helicopter or

ground launcher, and it's equipped with a proximity fuse to counter drone threats.

Transformative Technologies

We're developing software with a secure systems lifecycle and industry-specific risk management frameworks, embedding cybersecurity into our products including satellites, propulsion systems, ...

Advanced Technology , Raytheon

Products and Services From discovery to practical application, Raytheon's Advanced Technology team is developing the next generation of fundamental and foundational technologies.

RTX Corporation

RTX manufactures aircraft engines, avionics, aerostructures, cybersecurity solutions, guided missiles, air defense

systems, satellites, and drones. The ...

RTX reports 2025 results and announces 2026 outlook

RTX is the world's largest aerospace and defense company. With more than 180,000 global employees, we push the limits of technology and science to redefine how we connect and ...
