

Rural Business Opportunities Solar Power Generation System

Overview

The USDA's Rural Energy for America Program (REAP) offers grants and loans to make solar more affordable for farms and rural small businesses. If your farm or business meets REAP eligibility criteria, applying for a grant can significantly reduce the cost of taking your business. Alternative energy sources such as wind, geothermal, hydro and solar have grown increasingly popular as ways to reduce greenhouse gas emissions and strengthen the grid by decentralizing power production. Like all businesses, a farm or rural business will benefit from tax savings. In July 2025, Congress voted to repeal tax credits for solar. are stepping into the spotlight in 2025. According to the American Farmland Trust's (AFT) Farms Under Threat: 2040 analysis, there is potential that 83% of solar built by 2040. According to the U. Department of Energy, the solar energy sector employed over 330,000 Americans in 2020, and the number continues to grow. This trend has particularly benefitted rural communities where the construction and operation of solar farms generate new opportunities in various sectors.
