

# Serbia lithium-ion batteries

Application scenarios of energy storage battery products

## Overview

---

The European Union's designation of the “Jadar” lithium project as strategic for critical raw materials opens new opportunities for Serbia, positioning it not only as a lithium producer but also as a potential key player in Europe's battery manufacturing value chain. Nemanja Mikac is the founder and CEO of ElevenEs, which is one of the first lithium-iron-phosphate battery factories in Europe. Though this may be common knowledge, what you might not know is that Serbia is second only to Portugal in Europe's amount of natural lithium reserves. Some of the current market prices for lithium-ion batteries are below cost and will not last forever but Europe still needs to be more cost-competitive, the CEO of one of Europe's first LFP manufacturing facilities told Energy-Storage. Flow batteries offer long-duration storage suitable for managing seasonal or multi-day imbalances. Hybrid systems combining batteries with supercapacitors or flywheels can deliver both fast response and high energy capacity. Under the umbrella of the European Battery Alliance, EIT InnoEnergy will ramp up efforts to boost a sustainable and resilient Serbian battery ecosystem and embed it into the existing European value chain.

### The rise of energy storage: Why batteries will decide Serbia's

Serbia's path to a stable, renewable-dominated energy system will be written not only in wind turbines and solar panels but in the batteries that make their power dependable.

### EU seals 'historic' pact on Serbia's lithium deposits

The EU has hailed a pact with Serbia on lithium mining as a "historic day for Serbia, as well as for Europe", bringing to an end a race to seal the deal.

### 'China selling below cost': Serbian LFP

In the following, remarkably frank interview, ElevenEs CEO Nemanja Mikac discussed the dynamics of the current global lithium-ion battery market and falling prices from China - the ...

## Why are people in Serbia protesting plans to dig a giant lithium mine

Thousands filled the streets of the Serbian capital Belgrade on Saturday to protest plans to mine one of Europe's largest deposits of lithium.

## Sacrificing Serbia for the EU's EV Industry and Lithium Batteries

In the shadow of Europe's green ambitions, Serbia is becoming a quiet casualty. Learn the deeper story of lithium, local lives, and the hidden cost of the EU's electric dreams.

## European Battery Alliance to support development of a sustainable

Under the umbrella of the European Battery Alliance, EIT InnoEnergy will ramp up efforts to boost a sustainable and resilient Serbian battery ecosystem and embed it into the existing ...

## Serbia-EU lithium deal ignites social thermal runaway - Batteries

EU leaders signed an agreement with Serbia last month, as reported by Batteries International on July 24, in the bloc's latest bid to counter its dependence on Asian dominance of the ...

## EU and Serbia Sign Lithium Agreement

The European Union has signed an agreement with Serbia to promote the development of lithium supply chains. This cooperation is part of the EU's strategy to develop raw material ...
