

# Sodium flow solar container battery in Manchester UK

## Overview

---

Leading this transition is Eleven Energy, a British startup from Cambridge that's pioneering a sustainable alternative — a fully integrated, sodium-ion battery and hybrid inverter system, now installed in homes across the UK. Introducing the UK's First Commercially Available Sodium-Ion Battery Cleaner - Greener - Safer Why Choose Sodium-Ion Batteries?

- Ultra Low Temperature operations - Charge at -20 degrees discharge to -30!  
Choosing a selection results in a full page refresh. Explore eco-friendly Sodium-Ion Batteries. A Sustainable, Reliable, and Scalable Energy Storage Solution  
The Eleven Energy 4.5 kWh Sodium Battery Pack combines innovative sodium-ion technology with sustainable design, offering reliable energy storage that's eco-friendly, durable, and adaptable to your needs. Our batteries are not just a product; they're a commitment to a safer, more sustainable future. Built for sustainability from the ground up, this next-generation battery is made from abundant, non-toxic materials —making it a cleaner, safer alternative to lithium-based systems. With a strong intellectual property portfolio and collaborations with leading institutions, Faradion positions itself as a market leader in this.
