

# Solar panel production in Djibouti

## Overview

---

In just one year, Djibouti has gone from having almost no solar installations and limited technical capacity to hosting several solar companies, trained national engineers and even a facility assembling the first made-in-Djibouti solar panels. While international entrepreneurs often know Djibouti for its strategic port—a critical gateway to the Horn of Africa—a closer look at its national agenda and the latest Djibouti energy news reveals a far more compelling opportunity. The country has set an ambitious goal to achieve 100% renewable. The Minister of Energy and Sustainable Development (right) and the Resident Coordinator (centre) meet with Djiboutian solar panel business owners and engineers at the first National Forum on Solar Energy (FNES 2025). The nation's strategic location at the Red Sea crossroads creates unique opportunities for both local energy solutions and export-oriented production. PV plant in Djibouti. Amea Power continues i across its territory. The construction of the first large-scale solar generation project began in November 2022 in the Gran Bara Desert, which is located in the cou ge projectin. o build a 30 MWp solar PV plant in Djibouti. This will be done in the fra ework of a public-private partnership (PPP)., (nd), Sunshine & Daylight Hours in Djibouti, Djibouti, Retrieved on Novem, from.
