

# Solar panels are considered illegal construction

## Overview

---

However, in general, solar panels are not illegal and most states have laws in place that protect a homeowner's right to install them. There are a few states where HOAs may still prohibit or restrict solar panels, but this is generally not the case. Most states have solar access laws that forbid any agreement, covenant, condition, bylaw, or contract that outlaws or limits solar installations by Homeowners Associations (HOA) or other municipal bodies. However, some states. The integration of solar panels into construction projects has become a pivotal aspect of sustainable development and green building regulations. While federal guidelines provide a baseline, local jurisdictions often implement additional requirements affecting everything from permit costs to HOA. Navigate the regulations and processes for safely and legally installing your own home solar system.
