

# The 2nd Photovoltaic Energy Storage Summit

**1mwh** (500kw/1mw)

AIR COOLING  
ENERGY STORAGE CONTAINER

## Overview

---

Bringing together over 450 senior leaders from solar and storage developers, utilities, IPPs, C&I offtakers, and state and federal government, the conference will feature keynote sessions focused on the biggest challenges and opportunities facing the solar and storage. Bringing together over 450 senior leaders from solar and storage developers, utilities, IPPs, C&I offtakers, and state and federal government, the conference will feature keynote sessions focused on the biggest challenges and opportunities facing the solar and storage. Aurora Energy Research is a global leader in energy market analytics. Headquartered in Oxford, the company has been helping clients make smart, data-led decisions since 2013. Aurora delivers insights across power, hydrogen, carbon and fossil fuels through advanced forecasting, cutting-edge software. The early booking rate is \$1395 USD per person. Register by February 28 to save \$500 USD off the \$1895 USD standard rate. Wood Mackenzie clients: Contact [events@woodmac.com](mailto:events@woodmac.com) for your discount rate and promo code. Wood Mackenzie's 19th annual Solar & Energy Storage Summit returns to Denver from April. Welcome to Second Edition of The Future Energy Summit 2026, a premier global event bringing together visionaries, industry leaders, and energy experts to shape the future of energy. As the world faces evolving energy challenges, our mission is to foster collaboration, innovation, and actionable. The Energy Storage Summit is where decisions get made, ideas sharpen, alliances form, and the next phase of market design, financing models, and build-out strategy is forged. The conference will feature keynote sessions. Life after tax credits: Do renewables retain a competitive advantage despite less Federal support?

How can utilities and developers make the most of the load growth boom?

A looming affordability and reliability crisis?

The impact of the energy transition and data center boom on customers Will.
