

# The largest battery energy storage power station in Rotterdam the Netherlands

## Overview

---

(PRESS RELEASE) ROTTERDAM, 6-Jan-2025 — / EuropaWire / — FlevoBESS is set to launch the largest battery storage facility in the Netherlands by the end of 2025, with a remarkable capacity of 31. Construction preparations for the facility are already underway. With a total capacity of 35 megawatts (MW) and a storage capacity of 41 megawatt hours (MWh), the battery will be used to balance power supply and demand in the Dutch power grid. Both battery systems are part of the. Dispatch, a Dutch battery developer, is going to construct the Netherlands' largest stand-alone Battery Energy Storage System (BESS). As the Netherlands transitions toward renewable energy, Rotterdam's unique infrastructure and industrial demand make it a hotspot for cutting-edge.
