Overview

Arizona, Hawaii, Massachusetts, New Mexico, New York, South Carolina and Utah offer personal tax credits to encourage solar installations. The most common solar tax incentive is called the Investment Tax Credit (ITC). The ITC — also known as the Federal Solar Tax Credit — is a popular tax rebate program offered by the US Federal Government for homeowners looking to switch to clean, renewable solar power. In August of 2022, the United. In several states, recent changes to net metering policies mean that people with solar panels earn less when they sell electricity to their local power grid. Solar rebates, tax credits, sales tax exemptions and other incentives vary significantly from state to state. Every state offers specific ways to help you save money on solar power. There are many things to consider when installing solar such as life of your existing roof, financing, and energy efficiency.
