

Top-mounted photovoltaic panels

Overview

Top of pole mounts install fairly quickly, and provide a secure mounting structure for up to 20 solar panels on a single pole, and multiple poles connected together for larger arrays. Our lines of Top-of-Pole Mounts are high-quality structures with heavy steel mounting sleeves and elevation pivots. The module rails are a mill-finish structural aluminum angle. There are a wide variety of installation methods for MAPPS[®] solar power systems. Systems from 10 Watts to 480 Watts using pole-mount solar panels can easily be mounted on vertical poles ranging from 2" to telephone poles. Pole mounting can be a more flexible option. Easy installation and infinite options with Tamarack's full line of vertical-mount solar panel hardware. We produce a variety of mounts addressing the wide range of mounting options in small scale and ad-hoc installation applications.

Why Use Pole Mounted Solar Panels?

Tamarack Side of Pole mounts. Adjustable tilt bracket allows you to fine-tune panel angle for each season. Foundation Engineering is Critical: Proper pole.
