

UAE liquid-cooled

UAE liquid-cooled

48V 100Ah

HPE, Khazna Launch UAE's First Liquid-Cooled AI Data Center

The new data centre facility addresses power consumption challenges by efficiently absorbing more heat with a liquid-based coolant solution, offering 20.7% higher performance per kW ...

Liquid-Cooled 3kW + Air-Cooled 1500W Solution for Dubai C& I ...

The client is one of the leading energy and storage companies in Dubai, UAE, specializing in the design and construction of commercial & industrial (C& I) energy storage systems, including utility-scale ...

Direct Liquid Cooling solutions , HPE United Arab Emirates

Designed for massive scale and built upon the dragonfly topology, this liquid cooled fabric connects directly with copper to reduce cost and power requirements. Choice of CPU and GPU accelerators ...

Liquid Cooling for Data...

Liquid cooling is a critical infrastructure requirement for AI data centers in hot climates like the Middle East, offering up to 24x better heat transfer than air.

HPE, Khazna Unveil UAE's Liquid-Cooled Data ...

Read about the UAE's artificial intelligence advancements and other news from the UAE Embassy in DC.

Direct Liquid Cooling in Dubai , Qubit Science Solutions

With rising energy costs and increasing environmental concerns in Dubai, traditional cooling methods are no longer sufficient. Qubit Science's Direct Liquid Cooling in Dubai offers an energy-efficient and ...

United Arab Emirates (UAE) Data Center Liquid Cooling System ...

Next-generation technologies such as

immersion cooling and direct-to-chip liquid cooling are revolutionizing the UAE data center landscape. These advanced cooling methods offer superior

Immersion Liquid Cooling Solution in Dubai

OceanCool immersion cooling solution combines performance, energy saving, and reliability, and is the cooling solution of choice for future-proof green, low-carbon, high-density data centers.

HPE Launches Managed Data Center with Liquid Cooling in UAE

Hewlett Packard Enterprise (HPE) has introduced a new managed data center hosting service in the UAE, in partnership with Khazna Data Centers. This service supports the UAE's ...

UAE's First Liquid-Cooled AI Data Center Launched

Hewlett Packard Enterprise (HPE) and

Khazna Data Centres have joined forces to unveil the UAE's first liquid-cooled AI data center, marking a significant milestone in the region's technology ...
