

# Victoria solar Power Station Energy Storage Procurement

## Overview

---

Pacific Green has secured planning approval for a 1GW/2.4GWh solar-plus-storage facility in northwest Victoria. Victoria is the home of big batteries and has legislated storage targets of at least 2.3 GW by 2035 to provide crucial support for more renewable capacity. In the future, much of our energy will be generated closer to where it is. From solar farms to factory floors, these systems are rewriting the rules of energy management. Let's break down what makes Victoria's solutions stand out: 1. The project, named the Nowingi Solar Power Station, is set to combine a high-capacity solar farm with one of the largest battery storage. The Australian Capacity Investment Scheme (CIS) is set to bolster energy storage capabilities in Victoria and South Australia with support for six new large-scale battery projects.

### Victoria's Investment Prospectus ENERGY STORAGE

Our legislated energy storage targets are backed by key government initiatives, such as the Victorian Renewable Energy Auction Scheme contracts, Solar Victoria's interest-free loans for home batteries, ...

## Batteries and energy storage projects

Storage is a vital part of our electricity grid. In the future, much of our energy will be generated closer to where it is used and the way we use it will be more efficient. Our modern energy ...

### Victoria solar storage: Impressive 300MWac Project Proposed

By combining solar generation with long-duration storage, the Nowingi Solar Power Station is poised to provide a stable, reliable, and clean energy supply, helping to reduce reliance on ...

### Victorian Big Battery

The Department of Environment, Land, Water and Planning (DELWP) engaged PwC as financial and commercial advisor to prepare the validation business case for the AEMO-led procurement of a ...

### BrightNight gets solar-plus-storage project approval in Victoria

It consists of a 360MW solar PV power plant and a 300MW co-located battery energy storage system (BESS), accounting for more than 1% of the state's total electricity consumption. The ...

---

## Potentia Energy completes 93MW solar PV plant in Victoria

Renewable energy company SmartestEnergy Australia inked a power purchase agreement (PPA) for the solar PV power plant in December 2023. Werther Esposito, CEO of ...

---

## Approval granted for 4.9GWh of battery energy storage in Victoria

Alongside the advancement of Pacific Green's Portland Energy Park, Australian renewables developer Edify Energy has secured federal government approval for its Nowingi Solar ...

---

## Victoria's Landmark Battery Storage: The Backbone of Australia's

During peak daylight hours, solar panels and wind farms generate substantial energy, often exceeding real-time consumption. The Megapack system offers a strategic solution by storing ...
