

# Waterproof Off-Grid Solar Storage Cabinet for Farms

## Overview

---

Designed to house up to 8 EG4 LifePower4 or EG4 Wallmount AllWeather batteries, this rugged, weather-resistant cabinet is the perfect solution for securing your off-grid or hybrid energy storage setup. Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. This place is called a "battery enclosure", or what is. AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads. The cabinet must protect batteries from bad weather to keep them working longer. Most of our enclosures are designed to NEMA3R and rated for outdoor.
