

# Which countries are covered by Belgian communication base station EMS

## Overview

---

Use this map to identify EMS / ambulance station locations in Belgium when you need fast situational awareness, not dispatch-grade certainty. Terminology can differ across countries (ambulance post, EMS base, medic station). Emergency medical services in Belgium (Dutch: dringende geneeskundige hulpverlening, French: aide médicale urgente, German: dringende medizinische Hilfe) [a] are commonly available throughout the country. In Belgium, the provision of prehospital emergency medical services (EMS) is assured by a. □Public Assistance Committee (municipality) = 15 ambulances 1956-1958 3 EMS in Belgium: yesterday 1958-1963 □First Call Centre 900 in Antwerp (1959) □Gradual creation of 16 Call Centres for 40 phone areas 4 1964 □Creation of a unified Call Centre (900) □Creation of Emergency Medical. Emergency medical assistance is legally defined as the immediate supply of appropriate assistance to all persons whose medical condition – as a result of an accident, a sudden disorder or a sudden complication of a sickness – requires emergency mediation after a call to the uniform telephone. The France-Belgium Convention on cross-border emergency medical services (EMS) allows medical emergency services of both states to intervene on the territory of the other country when necessary. However, the French Regional Health Agency Grand Est (FR) pointed out that the existence of different.
